If a demand for international preliminary examination is made, this opinion will usually be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA"). However, this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of three months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

Re Item V.

1 Reference is made to the following documents:

D1 : GB 1 261 667 A (MESSERSCHMITT-BOLKOW-BLOHM) 26 January 1972
(1972-01-26)

D2 : GB 2 070 139 A (GEC US) 3 September 1981 (1981-09-03)

2 INDEPENDENT CLAIMS 1 ANS 10

2.1 The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claim 1 is not new in the sense of Article 33(2) PCT.

Document D1 discloses (the references in parentheses applying to this document) a ram air channel for the supply of ambient air in an aircraft (p. 1, l. 11-22), which includes

- a first air inlet (figs. 1, 2) and
- a main flow channel (2) which extends downstream flow of the first air inlet (figs. 1, 2), whereby
- the ram air channel has a second air inlet (3) independent from the first air inlet (figs. 1, 2).

2.2 Document D2 also discloses a ram air channel comprising all features of claim 1. Therefore, the subject-matter of claim 1 is also not new with respect to this document.

2.3 The same reasoning applies, mutatis mutandis, to the subject-matter of the corresponding independent claim 10, which therefore is also considered not new.

3 DEPENDENT CLAIMS 2-9

Dependent claims 2-9 do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty and/or inventive step (Article 33(2) and (3) PCT).

Further observations

- 4 Contrary to the requirements of Rule 5.1(a)(ii) PCT, the relevant background art disclosed in the documents D1 and D2 is not mentioned in the description, nor are these documents identified therein.
